Botswana Building Society Audited Financial Results for the Year Ended 31 March 2018

CHAIRMAN'S REPORT

As you are aware, we are no longer Botswana Building Society following the incorporation of its successor entity BBS Limited on 26 April 2018. This is another important milestone in the history of our organisation as it marks progress towards commercialisation. Therefore, I am particularly pleased to be able to present this report to you as the first Chairman of

It has been a long journey which can be traced back to 2004 when the idea to demutualise Botswana Building Society was proposed to the Board by the then new Chief Executive Officer, now Managing Director, Mr. Pius Molefe. It is now coming to fruition at the right time when the fortunes of the business have been declining due to increased competition and reliance on two products being mortgages and investments.

Even though we are now a company, until BBS Limited is issued with a commercial banking license by the Bank of Botswana, it will continue to conduct the business of a building society. Therefore, all arrangements made with customers and other stakeholders continue under the new company as they are and will remain so under the envisaged commercial bank.

In the meantime, ordinary shares of those that bought them in BBS Limited using their shares as they then were under Botswana Building Society being Paid Up, Indefinite Period and Subscription, are now listed on the Botswana Stock Exchange's Over the Counter Platform called "Serala". BBS Limited was the first to list on this special counter and it should be noted that it is separate and different to the one for publicly listed entities which many of you

The rationale for listing on the Serala platform was to enable BBS Limited shareholders to trade their shares as and when they would like to. This time, trading in such shares will be carried out through a broker entirely under the supervision of the Botswana Stock Exchange.

Financial performance

We delivered an admirable set of results achieving a profit of P49.941 million (2017:P47.885 million). It increased by 4% compared to that of the prior year which affirms the resilience of our business. However, we can only build on this success if we can transform BBS quickly into a commercial bank, a process that is moving apace.

The Board also recommended a dividend of P57.803 million compared to P59.376 million the previous year to Shareholders. The decline in the dividend paid is mainly due to the reduction of the interest rate by 50 basis points by the Bank of Botswana in October 2017.

It is also important for me to remind Shareholders that it is projected that for the first three years after commercialisation, BBS Limited will make losses or a small profit. However, I must point out that the anticipated losses will not necessarily be because of poor performance. They will be a result of costs associated with the rolling out of new products and services, putting in place new systems for the commercial banking environment and the change in our capital structure since indefinite paid up shares are now categorised as liabilities having an impact on interest expenses as opposed to a dividend

Board evolution

Following the incorporation of BBS Limited, some Directors of the then Botswana Building Society retired to make way for new ones who will help take the organisation forward. Therefore, I would like to thank the following retired Directors for their dedicated service to BBS over the years: Mr. Simon Hirschfeld, Mr. Gerald Thipe, Mrs. Tsetsele Fantan, Mr. Kelebamang Motlhanka and Mr. Kelapile Ndobano.

On behalf of the BBS Limited Board and Staff, I would like to wish them well in their future endeavours. Over the years, the Botswana Building Society Board of Directors presided over a profitable organisation whose performance was admired by many especially given its competitors and the fact that it had a limited catalogue of products and services.

No doubt there have been other successes of the Botswana Building Society Board of Directors over the years: the Demutualisation Project itself whose ultimate prize will be the anticipated commercial banking license; upgrading of our core banking system T24 so that it has sufficient capacity for banking operations; putting in place solid governance structures; helping to maintain a commendable s-taff morale, and; supporting Management in all its endeavours to improve the business. The former Directors should rightly be proud of these achievements.

Following the retirement of the above Directors after the incorporation of BBS Limited a new Board came into being. It comprises myself, a former commercial banker with vast experience in banking, Ms. Pelani Siwawa-Ndai, a businesswoman and former senior central banker who held various positions at the Bank of Botswana, and; Mr. Kgalalelo Monthe a businessman and senior attorney with vast commercial law experience. We look forward to their contributions to the growth and development of BBS Limited. The new Directors joined those continuing from the Botswana Building Society Board being the Managing Director Mr. Pius K. Molefe, my immediate predecessor as Chairman of the Board Mr. James M. Kamyuka, Mr. Richard Molosiwa, and Mr. Michael M. Tlhagwane. I would like to thank the continuing Directors for ensuring that there was a seamless transition between the two Boards and for their support in welcoming us, the new Directors. Their institutional memory has also been invaluable.

Way forward

As stated above, we are hopeful that our application to the Bank of Botswana for a banking licence will be successful. We are targeting to start operating as a commercial bank in the second half of 2019.

Once again, I wish to assure you that we are well poised for the task ahead.

The necessary infrastructure, physical, technological, customers, shareholders and human resources, are in place ready to start serving you and the wider nation as Botswana's first indigenous commercial bank. It must be said, however, that we would not be where we are without your firm support for which we are grateful.

Taolelo Mosetlhi **Board Chairman**

PERFORMANCE HIGHLIGHTS for the year ended 31 March 2018

MANAGING DIRECTOR'S REPORT

As our Board Chairman Mr. Taolelo Mosetlhi notes in his statement, this has been a very busy period for BBS Limited since you passed the resolution to demutualise the then Botswana Building Society on 24 August 2017 paving the way to apply for a banking licence. It was absolutely the correct decision and much has been done to ensure that it becomes a reality in the shortest time possible.

The building society business model limits products and services offerings to mortgages and investment products such as Paid Up Shares. Once it has registered as a bank, BBS will build on its solid foundation as a mortgage lender and savings institution to offer a full range of products and services. It will deliver these through the existing distribution channels such as branches and ATMs. It will also leverage on technology to deliver quality and exciting customer experience.

We remain optimistic that our banking licence application will be considered favourably by the Bank of Botswana. In the meantime, we have upgraded our core banking system T24 to be ready for the exciting challenges of a commercial bank. On the people side, I am continually engaging with employees to ensure that we are all aligned and fully prepared for the commercial banking environment. Taking cognizance of the need to have people with the right skills and competencies and in appropriate business units, the company has embarked on a skills and competency audit. The intention is that where there are skills gaps, there should be targeted training and recruitment of people to handle specialist functions.

esults

I am sure you will be heartened to note that despite the on-going transformation process, the difficult trading environment and the total expenses having escalated from P140.0 million (2017) to P143.0 million, BBS continues to perform impressively.

BBS earned a profit of P49.941 million during the year ended 31 March 2018 (2017: P47.885 million). This being a 4% increase compared to that of the previous year.

Our assets are at P4.207 billion in 2017/18 this being a 15% increase from the previous year.

As for Paid Up and Subscription Shares there was an increase of 4% from P508.619 million (2016/17) to P527.201 million.

Fee and commission income registered a decrease of 6% from P22.465 million (2016/17) to P21.202 million

Interest income increased by 1% from P299.384 million (2016/17) to P303.079 million. Dividends paid amounted to P57.803 million compared to P 59.376 million the previous year, this being a decrease of 3% which was also as result of a decrease in interest

The cost to income ratio is 67% compared to 68.45% in the previous financial year. The cost to income ratio is expected to be high for the next few years as we continue to implement initiatives pertaining to the transformation process.

Transition

As indicated above, we are well prepared to transition to the new commercial bank. Our upgraded systems are in place; we will strengthen the leadership team with new members in relation specialist functions, and; we are embedding the new organisational structure amongst a number of initiatives. By the time BBS is issued with a commercial banking license, we would have been long ready for the new dispensation.

Rebranding of BBS

I imagine that one of the issues you may be asking yourselves is what your new bank will look like, that is its brand, what its personality will be and perhaps more importantly, how it will interact with you, employees and other stakeholders. We are working on a new brand for BBS and we have all these and more in mind to ensure that it will set BBS Bank apart from the competition. This will have to be a brand that is unique and competitive. It will be a brand that understands the market it is serving and will stand the test of time. Therefore, we are looking forward to the outcome of this rebranding project and we will ask for your input through a research exercise before the brand is finalised.

Supporting our communities

BBS continued to lend its support to various community initiatives during the year. As usual, we supported entities such as the Albinism Society of Botswana, the Sir Ketumile Masire Foundation, the women's social and economic empowerment group Shegotja Molelo, Happy Hearts Foundation which is raising funds to build a cancer treatment facility in Gaborone, Kalahari Conservation Society and Business Botswana.

With regard to supporting education, we equipped the computer laboratory at Mowana Primary School in Mowana, North East, with computers and internet connectivity for the benefit of pupils. We also carried out an eye testing exercise at Letswai Primary School in Zutshwa, Kgalagadi North, and donated spectacles to 42 pupils with eye sight challenges. It has generally been found that many pupils do not do well in their academic work not because they are not gifted but as a result of poor eye sight. Therefore, we hope that the pupils of Letswai Primary School will not only look after them but put them to good use as well. Perhaps more importantly, they will have a significant positive impact on their lives from now onwards. Many will recall that our relationship with Letswai Primary School started in 2013 when we adopted it and in the process, built the school a library for about P1.2 million. Since then, every year we have been helping the school in whatever way that we can including buying gifts for the best performing pupils.

Another of our projects was the construction of ablution facilities for teachers and pupils at Molapowabojang Primary School in Molapowabojang village in the southern part of our country. The project also included upgrading some of the existing ablution facilities. The pupils had been using pit latrines dating back to 1966 when the school opened.

Appreciation

On behalf of Management, I would like to express my appreciation to you our Shareholders for your steadfast support in this historic journey and to recently retired and present Board Members for their guidance.

In particular, I would also like to thank BBS Staff for their patience, understanding and forbearance during this period of transition and for working tirelessly to ensure that the Demutualisation Project is a success. Their hard work, including over weekends, late into nights and during public holidays on various aspects of the project have not gone unnoticed and will be rewarded by the envisaged main result: The first indigenous commercial bank in Botswana.

Thank you,

Pius Komane Molefe

Managing Director

DIRECTORS' REPORT

for the year ended 31 March 2018

The directors have pleasure in presenting their report together with the financial statements of Botswana Building Society ("the Society") for the year ended 31 March 2018.

Business activities

The Society is primarily involved in property finance and the provision of banking services.

Financial results and position

The Society's financial results and position are reflected in the financial statements set out on pages 30 to 90. The Society realised an increase of 3% in operating income from P188 million in 2017 to P193 million for the current year and an increase of 4% in profit for the year from P48 million in 2017 to P50 million for the current year.

Dividends

A gross dividend of P58 million was declared and paid to Indefinite Period Shareholders (2017: P59 million).

Board of directors as at 31 March 2018

Mr. James M. Kamyuka

Stated capital

The Society issued P73 million (net) Indefinite Period Shares during the current financial year (2017: P25.74 million (net).

Auditors

Events occurring after the reporting date The Society successfully held a Special Go

The Society successfully held a Special General Meeting (SGM) on the 24 August 2017 where certain resolutions detailed in note 38 were passed.

Subsequently, Botswana Building Society was converted to a company, BBS Limited on 26 April 2018 following its application to Companies and Intellectual Property Authority (CIPA).

BBS Limited will continue to operate the business of a building society until such a time that the Banking license application is evaluated by Bank of Botswana. The conversion resulted in a change in the capital structure as

On the 3rd September 2018 BBS Limited shares were registered on the Over The Counter (OTC) trading platform of Botswana Stock Exchange.

The directors are responsible for the preparation and fair presentation of the financial statements of Botswana Building Society, comprising the statement of financial position at 31 March 2018 and the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements which include a summary of significant accounting policies, in accordance with International Financial Reporting Standards and in the manner required by the Building Societies Act (CAP 42:03).

The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for maintaining adequate accounting records and an effective system of risk management.

The directors have made an assessment of the ability of the Society to continue as a going concern and have no reason to believe that the business will not be a going concern in the year ahead.

The auditor is responsible for reporting on whether the financial statements give a true and fair view accordance with the applicable financial reporting framework

Approval of the annual financial statements

The annual financial statements of Botswana Building Society, as identified in the first paragraph, were approved by the board of directors on 7th September 2018 and signed on their behalf by:

Mose Um.

Board Chairman

M.M. TIhagwane
Chairman-Finance
and Audit Committee
